BARTON Waterjet Abrasives

Performance and Value for Every Application

THE MOST EXTENSIVE LINE OF WATERJET CUTTING ABRASIVES IN THE INDUSTRY

With more than a dozen grades to select from, BARTON produces the ideal abrasive for every waterjet cutting application. Trusted since 1878 as the only source for the world's finest ADIRONDACK® garnet, BARTON's one-of-a-kind, 4-tiered product line makes it possible for customers to match the performance and affordability of the abrasive to their operation and application needs.

ADIRONDACK® HPX®

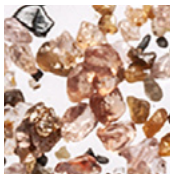
The ultimate hard rock garnet for waterjet cutting, ADIRONDACK HPX garnet abrasives are the industry standard for high-performance and cost-effective waterjet cutting.

- Cuts faster with better edge quality.

FUSION®

A custom blend of HPA and STL engineered to balance cutting consistency with operating cost. Delivers excellent cutting power and edge quality at a value price.

- Versatility and value.



ALLTEK™ HPA®

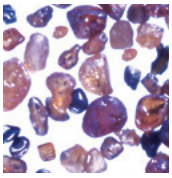
A highly versatile, alluvial garnet abrasive. Combines reliable quality and excellent waterjet cutting performance, ideal for a multitude of applications.

- A workhorse garnet for any application.

ECOTEK® STL

An economical, general-purpose abrasive. STL is a staurolite abrasive with solid cutting ability across a wide range of materials at an affordable cost.

- Economical waterjet cutting.



STANDARD PACKAGING: 55-lb. paper bags, 2,200-lb. and 4,400-lb. bulk bags.

All BARTON abrasive products are manufactured under tight Quality Assurance controls and are guaranteed to meet our high standards. We stand behind all our products with a 100% Quality Guarantee.
