

80 RTX Waterjet Abrasive

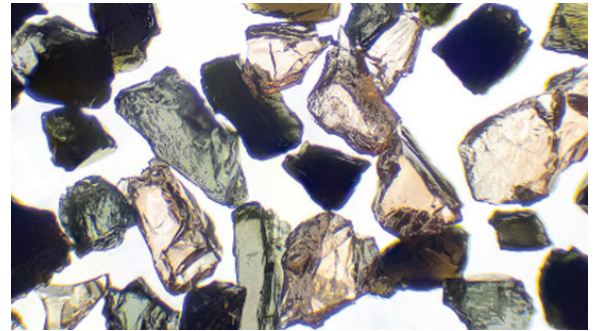

UTILITY WATERJET ABRASIVE

ECOTEK® RTX is a value-priced waterjet abrasive for general-purpose applications.

Produced with a blend of natural minerals, RTX is mined and processed at BARTON's operation in the Adirondack Mountains. The raw material is carefully screened and sized to create an abrasive with properties similar to garnet.

- Natural Mineral Abrasive
- Environmentally Safe
- Reliable Quality
- Produced in the USA

Standard Packaging: paper bags and bulk bags

ECOTEK abrasives deliver reliable BARTON quality for general-purpose waterjet cutting applications. RTX is manufactured under BARTON's tight Quality Assurance controls and is guaranteed to meet our high standards for health, safety and environmental compliance.

We stand behind all our products with a 100% Quality Guarantee.
